

# e-Governance Program for Executives

*One Year Full Time Residential Program by*

## National Institute for Smart Government

**In Association with**

### About the Program

The Government of India approved the National e-Governance Plan (NeGP) for improved delivery of Government services to citizens/businesses and other stakeholders ensuring efficiency, transparency and reliability of such services at affordable costs. The Department of Information Technology (DIT) Government of India with the help of National Institute for Smart Government (NISG) is driving capacity building initiatives at both the Central and State Government level.

New institutional structures such as National e-Governance Division (NeGD), State e-Governance Mission Team (SeMT) and Project e-Governance Mission Team (PeMT) are envisaged for the NeGP rollout. Government agencies are hiring experts from open market at market salaries on 2-5 year contracts and Government officers on deputation. A very large number of well-paid professional jobs are likely to become available in the immediate future in the private sector and Government institutions.

In order to achieve the capacity building needs in e-Governance in the country NISG, conceptualized a one-year full time residential program in e-Governance for Executives. This program is expected to build required manpower that can assume leadership roles in Private and Government organizations in conceptualizing, designing and implementing specific e-Governance projects.

NISG has collaborated with two of the business schools viz, T.A.Pai Management Institute (TAPMI), Manipal and IIM Indore to conduct the e-Governance Program (eGPX). The first batch of eGPX (e-Governance Program for Executives) passed out during 2010 and the second batch is going on at TAPMI Campus, Manipal. Now, the first batch for CPEG (Certificate Program in e-Governance for Executives) at IIM Indore is commencing from September 2011, for which the admission process is in progress.

*In the first year of its launch, eGPX was rated by Outlook Business, one of the top 30 courses for rising managers in India and Overseas.*

All the desirous private sector candidates received pre-placement offers from internship recruiters. Placements were provided by the key e-Governance consulting organizations like NISG, E & Y, Wipro and KPMG.

### **Program Objectives**

- To enlarge the pool of professionals available in the country to work in e-Governance domain. Acquire a holistic understanding of designing an e-Governance project.
- Acquire adequate skills in the analysis, design and implementation of an e-Governance project.
- Get exposed to the current trends in hardware, software, communications & networks.
- Appreciate and acquire the desired knowledge for change management and leadership.

### **Who Should Participate**

- Bright young executives from private sector companies in management/IT consulting, technology, software development, who aspire to move to leadership and managerial positions within e-Governance practice group of such companies. Candidates may be able to seek sponsorship from their companies after selection.
- Bright young officers in Government departments. Selected candidates from Government service may be eligible for fee subsidies from DIT, Govt. of India.
